Getting Around in Winter

Between Moonbeam Base Area and Solitude Village:

Skiers can access Solitude Village from the top of any chairlift, but the quickest route is to ride the Link chairlift from the Moonbeam Lodge base area, then ski directly to Solitude Village. For ski access from Solitude Village to the Moonbeam base area, walk across the Village Bridge toward Last Chance Lodge 10 and up the short hill onto Easy Street, a beginner trail.

Legs tired? Catch the Solitude Shuttle (S) in front of Ski & Ride School 12 and take a ride to Solitude Village. The Solitude Shuttle runs frequently each day between these two locations during the winter.

Between Moonbeam Base Area and Solitude Nordic & Snowshoe Center:

Solitude Nordic & Snowshoe Center is located 2.2 miles up Big Cottonwood Canyon from the Moonbeam Base Area. It can be accessed via the UTA Ski Bus that operates frequently each day between Solitude and Brighton. A UTA stop is located in the Moonbeam parking lot, and the buses travelling up canyon stop at the Nordic & Snowshoe Center. Those with Nordic skis or snowshoes can access the trail system from Solitude Village on the trail that begins behind The Inn at Solitude.

Getting Around in Summer

During the summer season, most activities occur in Solitude Village. Parking at Solitude Village is usually available, and if you're attending an event at Last Chance Lodge, it's the closest parking.

Easy Street run, adjacent to Link chairlift, connects Solitude Village and Moonbeam base area and offers an easy walk between the two.
