# Solitude

## Getting between base areas in summer

Traversing Solitude is easy. Choose the method that works best for you:

### • Ride Link chairlift

Travel by air! Link chairlift provides free transportation between Moonbeam base area and Solitude Village. A short walk is required between Solitude Village and the top of Link. See the Hours of Operation page on the Solitude website for lift operating hours.

### • Walk the paved path

Enjoy an easy, scenic walk through the forest. Approximate distance between base areas is 1/2 mile.

### • Take the shuttle (available during special events only)

From Moonbeam base area, catch the shuttle in front of the Ski & Ride Building. From Solitude Village, catch the shuttle outside of Honeycomb Grill at the shuttle turnaround location. Looks for signs at both locations.
